About Me

I'm a junior frontend developer experienced in building real-world projects using modern technologies like **Next.js**, **TypeScript**, and **Tailwind CSS**. I completed an intensive bootcamp that provided a strong theoretical foundation and hands-on experience. I focus on writing clean, structured code and creating user-friendly, efficient interfaces. Currently, I'm expanding my portfolio and looking to gain practical experience contributing to real-world projects in a collaborative team environment.

Projects

CodeLy Programming Articles — [Live Link](#) | [Github Link](#)

- Built with **Next.js**, **TypeScript**, **Tailwind CSS**, and **Hygraph**
- Content is fetched via **GraphQL** and supports posts in **MDX** format
- SEO-optimized and fully responsive

Gym Training — [Live Link](#) | [Github Link](#)

- Developed using **Next.js**, **TypeScript**, **Tailwind CSS**, and **shadcn/ui**
- Users sign in via **Firebase** and create workout tasks
- Features to **add**, **edit**, **pause**, and **delete** tasks

Education

Najot Ta'lim Training Center (2024-12-20 – 2025-04-20)

- Frontend development program focused on **React**, **Next.js**, **TypeScript**, and **Tailwind CSS**
- Worked on real-world projects during the course

Fergana State Technical University (2024-09-20 – present)

- Bachelor in Cybersecurity Engineering
- Learning modern web technologies in parallel

Skills

Programming Languages: JavaScript • TypeScript

Frontend: React.js • Next.js • Tailwind CSS

Soft Skills: Teamwork & Communication • Adaptability • Problem-solving
